

My family has really enjoyed XM radio due to not only the low commercials and advertisements, but also, when I listen to XM radio I feel like I am finally in control of what I listen to and what I have to listen to. XM radio has taken the place of tv and oridinay radio in my home. I would be very unhappy if it was shut down. I am just gettin so tired of watching 3 minutes of tv or listening to 2 minutes of radio and 10 minutes of advertisements, this is very annoying to my whole family. I hope XM radio is not shut down, it is a great asset to America and a wonderful, much needed change.Sandra Mayfield
